Identifying Data Science Tools to Enhance Indigenous Data Sovereignty for Health Data

Workshop Information:

A workshop co-hosted by the RDA International Indigenous Data Sovereignty Interest Group, Global Indigenous Data Alliance, the First Nations Information Governance Centre, and the Indigenous Data Network. This is the first co-convened event by these entities.

Time: Tuesday 17th March 2020
Venue: The Digital Lab (Room 213-215) @ University of Melbourne, Australia

Workshop Goals:

(1) Identify practical tools at the intersection of Indigenous data sovereignty and data science for application with Indigenous health data;

(2) Develop/identify use cases specific to Indigenous data sovereignty, data science, and health data;

(3) Expand the RDA International Indigenous Data Sovereignty Interest Group collaborations from the nation-state based Indigenous data sovereignty networks

RSVP for catering purposes: http://bit.ly/RDA-IDSovHealthWorkshop

Agenda:

900 am - Welcome to/Acknowledgement of Country

915 am - Introduction

930 am - A brief overview of Indigenous Data Sovereignty and Indigenous Data Governance

945 am - Panel: Indigenous participation in Indigenous data governance and access to health data

1100 am - Breakout Sessions: How can we enhance data access and governance to improve Indigenous Health outcomes? What do we need to make this happen?

1200 pm - Large Group Report Back on Breakout Sessions

115 pm - Panel: Data science tools for Indigenous data sovereignty with health data

200 pm - Breakout Sessions: What infrastructures, tools and capacities are necessary to support Indigenous Data Sovereignty with health data?

300 pm - Large Group Report Back
